

ECDC GROUND DISTURBANCE POLICY

Work that involves a man-made cut, cavity, trench or depression in the earth's surface formed by earth removal cannot proceed unless:

- A hazard assessment of the work site is completed by the competent person(s) ;
- All underground hazards, i.e., pipelines, electric cables, etc., have been identified, located and if necessary, isolated ;
- A confined space entry permit shall be issued if the entry meets the confined space definition ;
- Ground movement is controlled and collapse is prevented by systematically shoring, sloping, benching, etc., as appropriate ;
- Ground and environmental conditions are continuously monitored for change ;
- Third party equipment complete with valid color-coded lifting gear (e.g. Slings, shackles, etc.) & certificates.
